

Folgard RX™ Tablets

Description

Folgard RX™ Tablets are intended for oral administration.

Each Tablet Contains: 2.2 mg folic acid, 25 mg Vitamin B-6 and 1 mg Vitamin B-12.

Also Contains: carnauba wax, citric acid, corn starch, dicalcium phosphate, hypromellose, magnesium stearate, microcrystalline cellulose, polyethylene glycol, polysorbate 80, riboflavin, silicon dioxide, sodium benzoate, sodium citrate, sodium starch glycolate, sorbic acid, stearic acid and titanium dioxide.

Indications and Usage

Folgard RX™ Tablets are indicated for nutritional support and folic acid supplementation.

Contraindications

This product is contraindicated in patients with a known hypersensitivity to any of the ingredients.

Precautions

Folic acid in doses above 0.1 mg daily may obscure pernicious anemia in that hematologic remission can occur while neurological manifestations remain progressive.

Pediatric Use

Safety and effectiveness in pediatric patients have not been established.

Adverse Reactions

Allergic sensitization has been reported following both oral and parenteral administration of folic acid.

Dosage and Administration

Adults – one tablet daily or as directed by a physician.

How Supplied

Folgard RX™ Tablets are oval, yellow and film-coated. Each tablet is imprinted with “US” on the scored side and “191” on the other side.

Folgard RX™ Tablets is available in bottles of 100 tablets (NDC 0245-0191-11).

Keep out of reach of children.

Dispense in tight container with a child-resistant closure.

Storage Conditions: Store at controlled room temperature, 15-30°C (59-86°F). Protect from light and moisture.
