Sawai Pharmaceutical Co., Ltd.

Upsher-Smith Laboratories, LLC

**UPSHER-SMITH LABORATORIES COMPLETES ACQUISITION OF TWO TREATMENTS
FOR ACUTE MIGRAINE IN ADULTS**

Maple Grove, MN – July 20, 2019 – [Upsher-Smith Laboratories, LLC](#) (“Upsher-Smith”, President and CEO: Rusty Field), a subsidiary of Sawai Pharmaceutical Co., Ltd. (“Sawai”, Head office: Osaka, Japan, President: Mitsuo Sawai) today announced that it has completed the acquisition of Tosymra™ (sumatriptan) Nasal Spray 10 mg, and Zembrace® SymTouch® (sumatriptan succinate) Injection 3 mg from [Dr. Reddy’s Laboratories Limited](#) (“DRL”, Head office: Hyderabad Telangana, India, Co-Chairman and CEO: G.V. Prasad). The products were previously commercialized through DRL’s wholly owned subsidiary, [Promius Pharma LLC](#) (“Promius”, Head office: New Jersey, USA, President: Anil Namboodiripad). Both medications are indicated for the acute treatment of migraine with or without aura in adults.

“More than thirty-six million Americans suffer from migraines, and Upsher-Smith is proud to be diversifying our portfolio with two products that can bring pain relief to a significant number of patients suffering from acute migraine,” said Rusty Field, President and CEO, Upsher-Smith. “We will be working diligently to ensure the smooth delivery of Zembrace® SymTouch® to patients, and to prepare for the launch of Tosymra™, which we expect to take place toward the end of 2019.”

The addition of Tosymra™ and Zembrace® SymTouch® rounds out Upsher-Smith’s migraine product portfolio. The Company currently offers [Qudexy® XR \(topiramate\) Extended-Release Capsules](#), a once-daily treatment for use in the prevention of migraine headache in adults and adolescents 12 years of age and older.

About Sumatriptan Formulations

Tosymra™ Nasal Spray 10 mg, and Zembrace® SymTouch® Injection 3 mg are indicated for the acute treatment of migraine with or without aura in adults.

About Migraine

Migraine is an inherited, disabling, neurological condition that leads to attacks of head pain, sensitivity to the environment, and other neurological symptoms.¹ It is the third most common and the seventh most disabling medical disorder in the world, affecting more than 36 million Americans.¹ Treatments for migraine include acute and prophylactic with the majority of patients using acute treatments.²
